

# Juggling Thuds

Acquire a quantity of "dead" tennis balls

You will need 3 balls/set of juggling thuds

Mark each tennis ball with an "X" to indicate where it will be punctured with the scissors

Puncture each of the three tennis balls with the scissors

Immerse the punctured tennis balls in water

Squeeze and release under water until each of the balls is full of water and air bubbles are no longer visible

Dry the balls thoroughly

Cut the neck off of a 7" balloon and stretch the balloon over the "X" side of the ball

Cut the neck off of a second balloon, turn the ball over and cover the other side of the tennis ball
