- 1) Equal employment opportunity for applicants and employees are provided without regard to color, gender, race, national origin, religion, creed, age, sexual orientation, gender identity, marital status, disability, veteran status or as otherwise prohibited by law. Placement decisions are based solely on an individual's qualifications and skills for the position being filled.

Reasonable accommodations will be provided whenever possible in our efforts to advance employment opportunities for persons with disabilities. Equal opportunity shall also be extended to programs and services.

If there is a grievance or one has questions regarding these procedures, the following information may be used to contact the Equity Coordinator:

Name: Maria Cashman, Associate Administrator

Employees, students, parents of students, and applicants for employment in the Agency may file a formal complaint alleging discrimination. If appropriate, the Agency will take steps to prevent the recurrence of discrimination and to correct discriminatory effects on the Complainant and others.

A Complainant may attempt to resolve the problem informally by discussing the matter with an Agency supervisor. However, the Complainant has the right to end the informal process at any time and pursue the formal grievance procedures outlined below. Use of the informal or formal grievance procedure is not a prerequisite to the pursuit of other remedies. Please note that an informal process is not to be used in certain circumstances (e.g., sexual harassment and sexual assault).

For complaints related to a child's disability, the complaint is not resolved through this complaint procedure. Rather, the parents have a right to initiate due process procedures under the Iowa Rules of Special Education to resolve the issue. The due process procedures are available from the AEA staff member(s) involved or their immediate supervisor.

Filing a Complaint

When a Complainant wishes to pursue a formal complaint, he/she may do so by filing a signed, written complaint with the Agency's Equity Coordinator. The complaint will state the nature of the complaint and the remedy requested. Written complaints are to be filed within 25 business days of the event giving rise to the complaint or from the date the Complainant could reasonably become aware of the occurrence. The Equity Coordinator will assist the Complainant as needed.

Investigation

Within 15 business days, the Equity Coordinator will begin the investigation of the complaint or appoint a qualified person to undertake the investigation (hereinafter "Equity Coordinator"). If the Complainant is under 18 years of age, the Equity Coordinator shall notify his or her parent(s)/guardian(s) that they may attend investigatory meetings in which the Complainant is involved. The complaint and identity of the Complainant, the individual named in the complaint (Respondent), or witnesses will only be disclosed as reasonably necessary in connection with the investigation or as required by law or policy. The investigation may include, but is not limited to the following:

- A request for the Complainant to provide a written statement regarding the nature of the complaint;

- A request for the Respondent to provide a written statement;
- A request for witnesses identified during the course of the investigation to provide a written statement;
- Interviews of the Complainant, Respondent, or witnesses;
- An opportunity to present witnesses or other relevant information; and
- Review and collection of documentation or information deemed relevant to the investigation.

Within 60 business days of beginning the investigation, the Equity Coordinator shall complete the investigation and issue a report with respect to the findings.

The Equity Coordinator shall notify the Complainant and Respondent of the findings within 5 business days of completing the written report. Notification shall be by U.S. mail, first class.

Decision and Appeal

The complaint is closed after the Equity Coordinator has issued the report, unless within 10 business days after receiving the decision, either party appeals the decision to the Chief Administrator by making a written request detailing why he/she believes the decision should be reconsidered. The Equity Coordinator will promptly forward all materials relative to the complaint and appeal to the Chief Administrator. Within 30 business days, the Chief Administrator shall affirm, reverse, amend the decision, or direct the Equity Coordinator to gather additional information. The Chief Administrator shall notify the Complainant, Respondent, and the Equity Coordinator of the decision within 5 business days of the decision. Notification to the Complainant and Respondent shall be by U.S. mail, first class.

The decision of the Chief Administrator shall be final.

The decision of the Chief Administrator in no way prejudices or denies the right of the Complainant to file formal complaints with the Iowa Civil Rights Commission, the Federal Office of Civil Rights, the Iowa Department of Education or other agencies available for mediation or rectification of civil rights complaints, or to seek private counsel for complaints alleging discrimination.

This policy and procedures are to be used for complaints of discrimination, in lieu of any other general complaint procedures that may be available.

If any of the stated timeframes cannot be met by the district, the district will notify the parties and pursue completion as promptly as possible.

Retaliation against any person, because the person has filed a complaint or assisted or participated in an investigation, is prohibited. Persons found to have engaged in retaliation shall be subject to discipline.

Relevant Labor Market

The Grant Wood Area Education Agency (GWAEA) Equity Advisory Committee utilized the Population Estimates Program (PEP) and the American Community Survey (ACS) data, both updated annually and available from the U.S. Census Bureau at <https://www.census.gov/>. This data includes 2017 estimated population characteristics by a specific area or region, and statistics were reviewed for the metropolitan statistical areas of Johnson and Linn counties.

When recruiting for staff vacancies, local, regional and/or national searches are conducted depending on the job category of the vacancy. Questions regarding relevant labor market (below) are utilized when conducting searches. Recruitment activities consider the goals established to affirmatively recruit qualified women, men, members of diverse racial/ethnic groups, and persons with disabilities for job categories where under-representation is indicated.

Factors for Determining Our Relevant Labor Market for Recruitment

The Grant Wood Area Education Agency recruits employees from a wide variety of locations. All job openings are posted on TeachIowa.gov, a centralized statewide education job posting system. In most circumstances, additional advertising for hourly staff will occur locally; regional and/or national searches may be conducted for contracted, salaried and management staff.

The following questions are asked when determining the labor market in which to advertise for new candidates.

1. Where do current employees live?
2. What are the required qualifications for this position?
3. Where may persons who hold those qualifications reside?
4. Are internal candidates an option for the position?
5. Will the location where we choose to advertise provide us an adequate supply of candidates?
6. What are the race and gender characteristics of people from that location who possess the qualifications?
7. Will the successful candidate be within commuting distance?
8. Would a candidate move from a distant location to take a position?
9. What recruitment mechanisms have been used in the past?

Promotability Analysis

Employment actions involving transfer, promotion and re-assignment are based on employee qualifications and the needs of the Agency, in accordance with policies established by the Board. External and internal opportunities are communicated and all interested employees may apply for consideration. Vacancies and assignment openings are updated and communicated on a daily basis as openings are available. No problem areas or barriers to equal opportunity have been identified.

Mobility Analysis

A mobility analysis is completed every two years with the intent to examine staff advancement within the Agency. Staff advancement includes an increased pay level, a change in employee classification, and/or a voluntary change of job category. As a result, advancement may also include lateral changes, which are noted in the analysis. The analysis will help reveal if barriers exist in the advancement of current employees.

For the four prior reporting periods, of the total staff who experienced mobility on a lateral or advanced basis, the following reflects the percentage of that total in under-represented categories related to ethnicity and/or disability:

2008-10	2.6%
2010-12	0.0%

2012-14	5.0%
2014-16	2.9%

For 2016-18, 2.1% of staff who experienced lateral or advanced mobility were in under-represented categories. This data point comparably reflects the composition of Agency staff during this timeframe, and no problem areas or barriers to equal opportunity were identified.

When reviewing mobility data based on gender over the 2016-18 review period, males represented 10.6% of the staff changes. On average, the total percentage of all male employees for this timeframe was 11.2%. When analyzing the mobility related to promotions, males represented 18.2% of these advancements. No problem areas or barriers to equal opportunity were identified.

Vacancy Analysis

In addition to local demographics, vacancy analysis is another consideration in the adoption of numerical goals. The vacancies for the past two years were examined by employee group. Projected vacancies for the next two years were based on the average number of vacancies per year over the past five-year period.

Quantitative Analysis: Progress toward Reaching 2016-18 Numerical Goals

The table below depicts the Numerical Goals that had been established for the 2016-18 EEO/AA Plan. As indicated in the shaded area, two of the four numerical goals were achieved.

Job Category	Under-Representation	Projected Vacancies Based on 5-Yr Average	2016-18 Numerical Goal	Results	Actual Vacancies	# of Applicants	Applicant Representation
Office/clerical	Ethnic Minority, Disabled, Gender (male)	7	1 ethnic minority, disabled or male	Not met	14	321	16 non-white (5.0%) 20 male (6.2%) 2 disabled (0.6%) (98.7% responded)
Professional	Ethnic Minority, Disabled, Gender (male)	66	3 ethnic minority, disabled or male	Met (Hired 2 minority, and 3 male)	76	445	13 non-white (2.9%) 87 male (19.6%) 1 disabled (0.2%) (98.9% responded)
Officials/managers	Ethnic Minority, Disabled	4	1 ethnic minority or disabled	Not met	3	92	3 non-white (3.3%) 50 male (54.3%) 0 disabled (0%) (94.9% responded)
Technicians	Ethnic Minority, Disabled	18	2 ethnic minority or disabled	Met (Hired 4 minority, 1 disabled)	35	201	14 non-white (7.0%) 46 male (26.8%) 3 disabled (1.8%) (98.3% responded)

Proposed Numerical Goals 2018-2020

Under-representation occurs when individuals in a protected class are employed at a rate below their availability in the work force. U.S. Census data estimates for 2017 indicate total civilian labor force as a percent of population for age 16 years+ is 70.4% and 71.5% for Linn and Johnson counties respectively and the non-white population for each county is 11.1% and 16.4% respectively. No specific data was located regarding total minority labor force available for the state of Iowa and/or Linn and Johnson counties, however the most recent data previously accessible from Iowa Workforce Development in 2016 indicated the total minority labor force available for the State of Iowa was 8.4%, and the total minority labor force available for Linn and Johnson counties was 7.3% and 12.9% respectively. In 2017-18 the total minority population employed by the Agency is

2.9% (which compares to recent years as follows: 2.7% in 2016-17; 2.5% in 2015-16 and 2.8% in 2014-15). The Agency minority population has been 2.0% or higher since 2011-12.

Iowa is less racially diverse than the nation as a whole, with census data indicating 91.1% of the population in the state of Iowa reported as white, compared with 76.6% nationwide. This fact is compounded by the likely probability that the availability of minorities qualified to work in the particular occupations of the Agency is lower than the total minority work force. It can be reasonably speculated that one major barrier for making progress in minority staffing is the requirement for advanced degrees and specialized licenses that are necessary to be eligible for the majority of positions at the Agency. Qualitative goals include an ongoing effort to inform and encourage qualified employees and potential employees in under-represented categories of job opportunities with the Agency. Note: While males are not considered a protected class, efforts are made to promote gender balance in a field where the majority of positions tend to be held by women.

Based on workforce and vacancy analyses, as well as state and local demographic data, the previous areas identified for under-representation still exist and the Equity Advisory Committee proposes the following numerical goals continue and be retained for the new plan:

Job Category	Projected Vacancies Based on Past 6-Year Average	2018-20 Numerical Goal
Office/clerical	12	<i>1 individual</i> from one or more of the following under-represented groups: ◆ Gender (male) ◆ Ethnic Minority ◆ Disability
Professional	93	<i>3 individuals</i> from one or more of the following under-represented groups: ◆ Gender (male) ◆ Ethnic Minority ◆ Disability
Officials/managers	4	<i>1 individual</i> from one or more of the following under-represented groups: ◆ Ethnic Minority ◆ Disability
Technicians	28	<i>2 individuals</i> from one or more of the following under-represented groups: ◆ Ethnic Minority ◆ Disability

Review Progress toward Qualitative Goals for 2016-18 EEO/AA Plan

1. Continue exploring options for **broadening the recruitment “net”** to engage and communicate with under-represented individuals and groups and further promote an inclusive community.

Results:

- All job vacancies are posted on Teach Iowa, a statewide system administered by the BoEE and DE. Teach Iowa provides a single source for all PK-12 public education job openings and is accessible via the DE’s internet site. The system and each job posting on the system include a statement that employers on the system will not discriminate in hiring. The Agency’s job openings are dually posted on the Agency web site.
- Dedicated FTE has been retained to support hiring and induction within the Agency. Currently, 1.4 FTE is allocated to internal mentoring and induction support. Two regional administrators co-lead the hiring process for all contracted staff positions.
- To proactively recruit for the future, Management Links and discipline teams continue their efforts to work directly with key institutions and/or community partners to build/establish relationships and work collaboratively in supporting a variety of field placements for internships, practicums and field experiences. Management Links have discretion to determine with their discipline teams the level of support they can provide for student experiences while maintaining quality services.

- Continuing efforts have been made to recruit and select mentors with diverse backgrounds, varied demographics and broad representation of experiences.
 - Recruitment materials are available for conferences, job fairs and/or targeted college visits by discipline group teams.
2. Promote **visible professional development opportunities** to build cultural awareness and support a cultural proficiency focus for region, discipline and individual growth.

Results:

- The Professional Development Office offered 48 workshops and/or courses related to the area of diversity or cultural competence. Of the 48 opportunities available, three events were cancelled due to lack of enrollment. For the 45 activities that were held, the number of AEA and/or LEA participants who attended ranged from 10 to 720, with an average of 58 participants per session.
 - Topics made available during 2016-18 include:
 - Diversity - Iowa Culture and Language Conference and 5 Preconference sessions; Creating Equitable Learning Environments; Exploring Diversity/Enhancing Equity; Human Relations; The Leader as a Deep Change Agent; Break Down Barriers to High Impact Instruction; Building Climate and Culture to Foster Teacher Efficacy and Ensure Student Success; Role of Implicit Bias in Educational Practice; Ethics, Diversity and Social Work Practice; Leading for Impact: Every Learner Every Day
 - English Language Learners and culture - Sheltered Instruction Observation Protocol for Teachers of English Language Learners; ELL Proficiency Standards; Critical Data Process - Disability or Language Acquisition
 - Study groups in districts - Helping Students Feel Safe and Ready to Learn
 - The employee study circle, previously identified through an Agency-wide equity needs assessment and approved as a Teacher Quality project, met six times during 2017-18 and was comprised of 12 participants and two outside facilitators. Collegial learning and discussion through the study circle was designed to increase staff awareness and capacity for working with culturally and socioeconomically diverse schools and students. A culminating outcome of the study circle, which concluded in April 2018, was the development of action worksheets to address two problems identified by the study circle participants: 1) limited cultural competence and awareness within AEA staff across all levels and 2) recruiting and retaining employees from ethnically and racially diverse backgrounds. Action ideas brainstormed by the study circle will be reviewed by Equity Advisory Committee for follow up.
3. **Explore additional resources through community organizations** to learn from the successes of others, enhance and advance opportunities for professional development, increase awareness and understanding regarding emerging issues, promote diversity in education and support a culturally responsive work environment.

Results:

- All organizational levels of the Agency are actively engaged in promoting partnerships and connections for the purpose of advancing equitable and effective services. A few of these examples include broad representation on advisory committees and/or community teams, cooperative purchasing to support ELL services and collaborative partner supports for at-risk early learners.
- Equity Advisory Committee members are supported in attending area workshops and other community activities. For 2016-18 these opportunities included a Spring conference in March 2017 organized by Johnson County Disproportionate Minority Contact Committee titled “Accomplices in Eliminating Racial Bias” with keynote speaker Jane Elliott; and a Spring workshop in May 2018 titled “The Role of Implicit Racial Bias in Educational Practice” presented/facilitated by Dr. Chris Martin, St Ambrose University.
- An additional .5 FTE was committed for ELL supports beginning 2016-17, and this FTE was increased to a full 1.0 for 2017-18, for a total of 2.0 FTE supporting ELL.

4. Review existing **feedback and measurement system(s)** to consider potential enhancements for monitoring growth and progress towards cultural proficiency.

Results:

- Professional development offerings are routinely evaluated by participants following each session, and this existing structure further enhances planning for future offerings.
- As part of a new statewide registration system for professional learning through the AEA's, which was launched in 2017-18, a common course proposal form includes a section related to Equity Standards. The standard areas include multi-cultural, gender fair, socio-economic, ELL and other diverse learners. Including the standards on the form acknowledges and supports embedding equity/diversity considerations across learning.
- In addition to potential action ideas identified by study circle participants, data collected by participants (which may include pre- and post-surveys and/or engagement in intentional dialogue around the racial and low SES gap within their assignments both during and up to one year following the study circle's conclusion in April 2018) will be reviewed for consideration of future study circle opportunities and/or identifying focused actions.
